

# ABC

## *Sustainability word by word to put up*

You need solid paper in different colours and the ABC template printed on white paper. You also need scissors and glue and adhesive tape to stick it to the walls.

First, you print out the template of the ABC on to white paper. Then cut along the lines so that each letter is on a separate piece of paper.

Take the coloured paper and cut it in half. The easiest way to do so is by folding the paper in the middle and then cutting along the folded line.

Now you can glue the pieces with the letters on to the colourful paper. Make sure you glue them together in line as it will look a lot prettier that way.

The ABC is nearly finished now. You just have to go through your school and find places to hang the letters up on the walls. When you do, just remember one thing: Hang it somewhere visible! You want people to see your beautiful work, don't you?
