

Stickers

Stickers placed, stop the waste.

Not much is needed to create them. All you need are scissors and the templates for the stickers. If you have white paper that sticks on its own, you can use that. If you don't, you can just as easily use normal paper and some adhesive tape.

Print out the templates for the stickers either on self-adhesive paper or on normal paper.

Cut around the red line and stick the stickers on the paper towel dispensers in your school toilets. Self-adhesive paper will stick to the dispenser on its own. To make normal paper stick to the dispenser, just use one or two stripes of adhesive tape.

Make sure you place the stickers in the middle of the paper towel dispensers as it'll look better that way. To reduce the waste of paper towels as fast as possible, make sure you place the stickers in all of your school toilets.
